

FELIPE BETTS

SOFTWARE DEVELOPER

ABOUT

Software Developer with over 1+ year of experience in fullstack web development. Integrated teams and also carried out solo deliveries in freelance projects

Using React and Node.js I built projects such as a digital bank platform, a donation aggregator, among others.

WORK EXPERIENCE

Frontend Developer, Valepay

AGO 2021 - AGO 2022

- Architected and developed the complete project (mvp) of the front-end (web) of a digital bank platform
- Translating figma designs into pixel-fidelity React code
- Dashboard with graphs, performing various financial operations and much more

Fullstack Developer, Freelancer

JAN 2021 - ATUAL

- Developed complete projects on demand for customers, using mainly the MERN stack (MongoDB, Express, React, Node)
- Acquired sales and customer relations skills
- Applied authentication with SMS token, created interactive UI's, and added new features to legacy code bases
- For a deeper description of each one of my projects, check out my website: <https://felipebetts.com.br/>
